

AutoCAD Electrical 2008: Essentials

Get Wired

Increase productivity and reduce errors with AutoCAD Electrical 2008 training.

Course Objectives

This course is designed as a starting point for new users of AutoCAD Electrical 2008. Learn the features and functions to build intelligent ladder diagrams and panel layouts and how to leverage this intelligence.

After completing this course you will be able to:

- Access drawings and copy projects
- Create point-to-point wiring diagrams and drawings
- Edit drawings projectwide
- Insert and annotate schematic symbols
- Extract information from drawings to create reports
- Create and annotate panel layout drawings
- Change project and drawing configurations

Course Length

4 days

Prerequisites

None

Training Facilities

Bell Canada has a state of the art training facility in Winnipeg that can accommodate up to 10 students, keeping the class size small for maximum attention.
