

## AutoCAD Map 3D 2008: Essentials

### Achieve Unprecedented Productivity

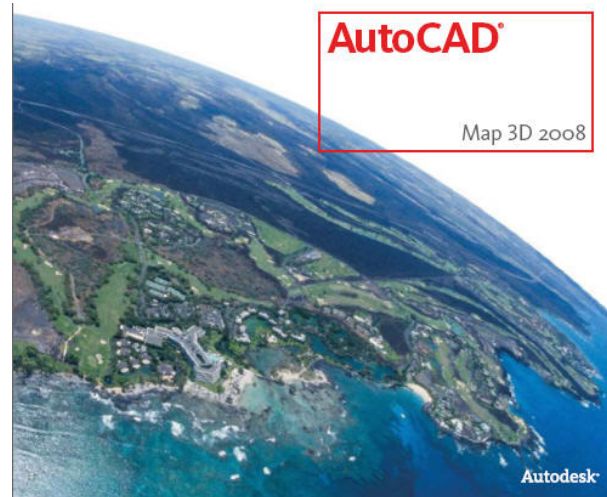

Take your geospatial projects to the next level with Map 3D 2008 training.

#### Course Objectives

This course is designed as a starting point for new users of AutoCAD Map 3D 2008. Learn the features and functions to create, manage, and analyze mapping data.

After completing this course you will be able to:

- Create and edit geometry
- Link and manage drawing based attribute data
- Import and export drawing based data
- Use object classification
- Work with raster images
- Use source drawing queries
- Stylize features
- Edit features
- Use topology and spatial analysis
- Plot maps
- Perform a typical workflow with parcels

#### Course Length

3 days

#### Prerequisites

None

#### Training Facilities

Bell Canada has a state of the art training facility in Winnipeg that can accommodate up to 10 students, keeping the class size small for maximum attention.

#### Ask about our Custom Training

Through consultation sessions, our trainers will develop a course plan tailored to the needs of your company. Phone us today to find out more details on our private custom training.
