

## AutoCAD Raster Design 2008: Essentials

### Rasterize, Vectorize, Mesmerize

Communicate ideas precisely and effectively through compelling presentations with Raster Design 2008 training.

#### Course Objectives

When you're ready to unlock and extend the value of scanned drawings, maps, aerial photos, satellite imagery and digital elevation models, you're ready for Raster Design 2008 training. This course is designed as a starting point for new users of AutoCAD Raster Design 2008. Learn the features and functions to create, manage, and edit raster images.

After completing this course you will be able to:

- Insert and create images
- Tile, save, and export images
- Work with multispectral images
- Correlate and rubbersheet images
- Enhance the appearance of images
- Edit images
- Work with DEM data
- Convert raster to vector

#### Course Length

2 days

#### Prerequisites

None

#### Training Facilities

Bell Canada has a state of the art training facility in Winnipeg that can accommodate up to 10 students, keeping the class size small for maximum attention.

#### Ask about our Custom Training

Through consultation sessions, our trainers will develop a course plan tailored to the needs of your company. Phone us today to find out more details on our private custom training.
