

AutoCAD Civil 3D 2008: Creating and Managing Plan Sets

It's all about the dynamic model.

Complete Civil Engineering projects faster, smarter and more accurately with Civil 3D 2008 training.

Course Objectives

Learn to use Civil 3D to complete construction documents. The courseware explains the functions of the Plan Production feature; its interaction with the Vault and with data shortcut project management components of Civil 3D; and the creation of documents using the Sheet Set Manager.

After completing this course you will be able to:

- Create a sheet template
- Create matchline and frame styles
- Generate a plan, profile and plan & profile sheets
- Design an intersection where a side street joins a main road

Course Length

2 Day

Prerequisites

AutoCAD Civil3D 2008: Essentials or Equivalent

Training Facilities

Bell Canada has a state of the art training facility in Winnipeg that can accommodate up to 10 students, keeping the class size small for maximum attention.
